

ENVIRONMENTAL CHECKLIST***Purpose of checklist:***

The State Environmental Policy Act (SEPA), Chapter 43.21C RW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

Instructions for applicants:

The environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring the preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write “do not know” or “does not apply.” Complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impacts.

Use of checklist for nonproject proposals:

Complete this checklist for nonproject proposals, even though questions may be answered “does not apply”. IN ADDITION, complete the SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS (Part D).

For nonproject actions, the references in the checklist to the words “project,” “applicant,” and “property or site” should be read as “proposal,” “proposer,” and “affected geographic area,” respectively.

A. BACKGROUND

1. Name of proposed project, if applicable: Cathy A. King timber harvest
2. Name of applicant: Cathy A. King
3. Address and phone number of applicant and contact person:

1391 E. Blanchard Road
Elk, WA 99009

(509) 292-0966

4. Date checklist prepared: September 16, 2004
5. Agency requesting checklist: Department of Natural Resources (DNR)
6. Proposed timing or schedule (including phasing, if applicable):

October and November, 2004

7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.

No

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.

None

9. Do you know whether applications are pending for governmental approvals or other proposals directly affecting the property covered by your proposal? If yes, explain.

Do not know

10. List any government approvals or permits that will be needed for your proposal, if known.

None

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agency may modify this form to include additional specific information on project description.)

Construction of approximately 420 feet of temporary haul road on state land. Road Use Permit 50-076798 will be issued pending SEPA comments.

12. Location of proposal. Give sufficient information for a person to understand the precise location of your proposed project, including street address, if any, and Section, Township, and Range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographical map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any application related to this checklist.

SW1/4SW1/4, Section 10, Township 28 North, Range 44 East, W.M.

B. ENVIRONMENTAL ELEMENTS**1. Earth**

- a. General description of the site (circle one): Flat, rolling, hilly, steep slopes, mountainous, other

Rolling

- b. What is the steepest slope on the site (approximate percent slope)?

20% in vicinity of proposed road

- c. What general types of soils (for example: clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.

Sandy loam (Moscow silt loam #4810)

- d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

No

- e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill.

Temporary use logging road, single lane, native material, self balancing quantities

- f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.

Little chance for significant erosion. Road will be water barred and grass seeded upon completion of logging.

- g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

None

- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

Best management practices, including water bars, grass seeding, and postponement of hauling during extreme wet weather.

2. Air

- a. What types of emissions to the air would result from this proposal (i.e., dust, automobile, odors, industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

Diesel smoke from road construction equipment for approximately one day.

- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

No

- c. Proposed measures to reduce or control emissions or other impacts to air, if any:

None planned

3. Water

a. Surface

1. Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

Yes, Type 3 stream approximately 250 feet north of road location.

2. Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

No

3. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of the fill material.

None

4. Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

No

5. Does the proposal lie within a 100 year floodplain? If so, note location on the site plan.

No

6. Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

No

b. Ground

1. Will ground water be withdrawn, or will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.

No

2. Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemical . . .; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

None

c. Water Runoff (including storm water):

1. Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities if known). Where will this water flow? Will this water flow into other waters? If so, describe.

Snowmelt and storm water runoff will be disbursed onto the forest floor before it can flow into any live stream.

2. Could waste material enter ground or surface waters? If so, generally describe.

No

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:

Erosion control measures, including water bars and grass seeding will be employed.

4. Plants

a. Check or circle types of vegetation found on the site:

- ☐ Deciduous tree: alder, maple, aspen, other:
☒ Evergreen tree: fir, cedar, pine, other:
☒ Shrubs
☒ Grass
☐ Pasture
☐ Crop or grain
☐ Wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other:
☐ Water plants: water lily, eelgrass, milfoil, other:
☐ Other type of vegetation:

b. What kind and amount of vegetation will be removed or altered?

Seeding and sapling size evergreen trees, various shrubs and native grasses will be removed from the road bed.

- c. List threatened or endangered species known to be on or near the site.
- None
- d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:
- None planned

5. Animals

- a. Circle any birds and animals which have been observed on or near the site or are known to be on or near the site:
- Birds: hawk, heron, eagle, songbirds, other: ravens
Mammals: deer, bear, elk, beaver, other: white tail deer
Fish: bass, salmon, trout, herring, shellfish, other:
- b. List any threatened or endangered species known to be on or near the site.
- None
- c. Is the site part of a migration route? If so, explain.
- Do not know
- d. Proposed measures to preserve or enhance wildlife, if any:
- None planned

6. Energy and Natural Resources

- a. What kinds of energy (electrical, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.
- Does not apply
- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.
- No

- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

Does not apply

7. Environmental Health

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? If so, describe.

Slight risk of fuel oil fire or spill from equipment

1. Describe any emergency services that might be required.

Spokane Fire District No. 4 for fire or fuel spill. Will notify the Department of Natural Resources.

2. Propose measures to reduce or control environmental health hazards, if any:

None proposed

- b. Noise

1. What types of noise exist in the area, which may affect your project (for example: traffic, equipment, operations, other)?

None

2. What types of levels of noise would be created by or associated with the project on a short-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

Noise from operation of road building equipment from 0700 to 1700 for one day.

3. Proposed measures to reduce or control noise impacts, if any:

None

8. Land and Shoreline Use

- a. What is the current use of the site and adjacent properties?
Commercial timber land
- b. Has the site been used for agriculture? If so, describe?
No
- c. Describe any structures on the site.
None
- d. Will any structures be demolished? If so, what?
No
- e. What is the current zoning classification of the site?
Rural Conservation
- f. What is the current comprehensive plan designation of the site?
Rural Conservation
- g. If applicable, what is the current shoreline master program designation of the site?
Does not apply
- h. Has any part of the site been classified as an “environmentally sensitive” area? If so, specify.
No
- i. Approximately how many people would reside or work in the completed project?
Does not apply
- j. Approximately how many people would the completed project displace?
Does not apply

- k. Proposed measures to avoid or reduce displacement impacts, if any:

Does not apply

- l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:

Does not apply

9. Housing

- a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

Does not apply

- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

Does not apply

- c. Proposed measures to reduce or control housing impacts, if any:

Does not apply

10. Aesthetics

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

Does not apply

- b. What views in the immediate vicinity would be altered or obstructed?

None

- c. Proposed measures to reduce or control aesthetic impacts, if any:

None

11. Light and Glare

- a. What kind of light or glare will the proposal produce? What time of day would it mainly occur?

Does not apply

- b. Could light or glare from the finished project be a safety hazard or interfere with views?

No

- c. What existing off-site sources of light or glare may affect your proposal?

None

- d. Proposed measures to reduce or control light and glare impacts, if any:

None

12. Recreation

- a. What designated and informal recreation opportunities are in the immediate vicinity?

Hiking, horseback riding

- b. Would the proposed project displace any existing recreational uses? If so, describe.

No

- c. Proposed measures to reduce or control impacts on recreation, including recreational opportunities to be provided by the project or applicant, if any:

None planned

13. Historical and Cultural Preservation

- a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe.

Do not know

- b. Generally describe any landmarks or evidence of historic, archeological, scientific, or cultural importance known to be on or next to the site? If so, generally describe.

Do not know

- c. Proposed measures to reduce or control impacts, if any:

None planned

14. Transportation

- a. Identify public streets and highways serving the site, and description proposed access to the existing street system. Show on site plans, if any.

Site served by the Deer Creek county road and Old Camden highway

- b. Is the site currently served by public transit? If not, what is the approximate distance to the nearest transit stop?

No

- c. How many parking spaces would the completed project have? How many would the project eliminate?

Does not apply

- d. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private).

The proposal is for the construction of approximately 300' of temporary logging road.

- e. Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.

No

- f. How many vehicle trips per day would be generated by the completed project? If known, indicate when peak volumes would occur.

Five truck loads of logs per day for about one week.

- g. Proposed measures to reduce or control transportation impacts, if any:

None

15. Public Services

- a. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe.

No

- b. Proposed measures to reduce or control direct impacts on public services, if any.

None proposed

16. Utilities

- a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other.

None

- b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

None

C. SIGNATURE

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.
